No. 12720—L. B. 6-18-14, dated 2nd April 1919.

Under Section 62 of the Local Boards and Village Panchayets Regulation, 1918, Government are pleased to make the following rules for the guidance of Village Panchayets, and Taluk Boards in respect of the preparation and submission of the Panchayet budget estimates of receipts and expenditure to the Taluk Boards as required by Section 59 thereof:—

1. A Village Panchayet shall prepare the budget estimates of its receipts and expenditure under all heads in the form appended to these rules.

2. The Chairman will forward the budget estimate, after it has been passed by the Village Panchayet, to the Taluk Board so as to reach that Board punctually on or before such date as may be fixed for the purpose.

3. The budget estimate of expenditure should provide for only sanctioned charges, and care should be taken that all proposals for increases or decreases of expenditure that should come into effect in the year for which the budget is prepared are as a rule fully considered and disposed of prior to the time of framing the estimates.

4. The President of the Taluk Board shall, in the first week of November, communicate to the Chairman of each Village Panchayet within the taluk, the sum, if any, proposed to be transferred from the Taluk Fund to such Village Panchayet under Section 56 (e). The Village Panchayet will take credit for this amount in preparing the budget.

5. The sanction of the Taluk Board is necessary for the transfer of allotments from one major head in the budget to any other major head. No formal allotment of funds is necessary for meeting a new item of expenditure from savings under the same minor head and for expenditure met from special grants for the same.

6. The need for exceeding the grant under a major head should be anticipated in time and sanction obtained for additional provision. If at the end of the year the total allotment of the year is found to have been exceeded, a special report should be submitted to the Taluk Board stating the reasons, why the excess could not be foreseen during the course of the year and sanction obtained for the admission of the excess expenditure. Trifling excess may be explained in the Administration Report.

7. Additional allotments from the balance in favour of Village Panchayets should not as a rule be sanctioned during the course of the year. The budget should be so framed as to obviate the necessity for such allotments. In cases, however, where fresh or additional expenditure cannot be provided for by special appropriations from the budget grants, Taluk Boards may sanction allotments from the balance.

8. Applications for additional grants as well as for re-appropriation of existing grants should always be submitted in time, not later than the 31st May to the Taluk Board to admit of orders on them being passed before the close of the year. After the year has closed no additional grants or re-appropriations can be sanctioned.

9. In preparing the budget care should be taken to see that the closing balance is not allowed to fall below 25 per cent of the annual normal receipts. The normal receipts for the year to which the budget appertains may be taken as the guide for this purpose.
